RAT CORTICAL CELLS

<u>Optimization of endothelial cell growth in a murine in vitro blood-brain barrier model</u>	Biotechnol J. 2011 Nov 18. doi: 2011 10.1002/biot.201100189.	
<u>Surface Patterning with Chemisorbed Chemical Cues for Advancing Neurochip Applications</u>	Ind. Eng. Chem. Res., 2011, 50 (17), pp 10029–10035 DOI: 10.1021/ie200358q	2011
<u>Application of multielectrode array (MEA) chips for studying the neurotoxicity of mixtures</u>	JRC Scientific and Technical Reports EUR 24930-2011 doi:10.2788/59451	2011
<u>From understanding cellular function to novel drug discovery:the role of planar patch-clamp array chip technology</u>	Front Pharmacol. 2011; 2: 51.	2011
<u>Characterization of Compound Effects on Neuronal Morphology and Neurite Outgrowth Using an Automated Image Analysis System</u>	Abstract Thermo Scientific-Cellomics	2006
<u>Neuronal Morphology and Neurite Outgrowth Characterization Using an Automated Image Analysis System</u>	Abstract Thermo Scientific-Cellomics	2006
<u>Quercetin Targets Cysteine String Protein (CSPA) and Impairs Synaptic Transmission</u>	PLoS ONE 13 June 2010 Volume 5 Issue 6 e11045	2010
<u>CD36 overexpression in human brain correlates with beta-amyloid deposition but not with Alzheimer's disease</u>	Free Radical Biology & Medicine, Vol. 36, No. 8, pp. 1018 – 1024, 2004 doi:10.1016/j.freeradbiomed.2004.01.007	2004
<u>Antidepressant fluoxetine suppresses neuronal growth from both vertebrate and invertebrate neurons and perturbs synapse formation between Lymnaea neurons</u>	European Journal of Neuroscience, Vol. 31, pp. 994–1005, 2010	2010
<u>CRF receptor 1 regulates anxiety behavior via sensitization of 5-HT2 receptor signaling</u>	nature NEUROSCIENCE doi:10.1038/nn.2529	2010
<u>A Chemical Screen Identifies Novel Compounds That Overcome Glial-Mediated Inhibition of Neuronal Regeneration</u>	The Journal of Neuroscience, March 31, 2010 • 30(13):4693– 4706	2010
<u>Transient reduction of spontaneous neuronal network activity by sublethal amyloid b (1–42) peptide concentrations</u>	J Neural Transm. 2009 Mar;116(3):351-5. Epub 2009 Feb 13.	2009
<u>Cerebrospinal Fluid of Brain Trauma Patients Inhibits in vitro Neuronal Network Function via NMDA Receptors</u>	Ann Neurol. 2009 Oct;66(4):546-55.	2009
<u>BD PureCoat™ Amine Supports Cell Attachment and Differentiation of Neural Cells</u>	BD Biosciences: Application Note #471	2009
